1. Check Region Availabilit for RDS MariaDB & EC2-instance

Check RDS MariaDB availability for your region

The availability of **Graviton** for **RDS MariaDB** may vary depending on your region. To speed up deployment and minimize the risk of an unavailable **RDS instance type** in your chosen region, we recommend referring to the **MariaDB** availability table based on the region from which you plan to deploy the BookStack infrastructure.

Last availability scan date: March 19, 2025.

Check EC2-instance availability for your region

The availability of **Graviton** for **EC2 instance** may vary depending on your region. To speed up deployment and minimize the risk of an unavailable **EC2 instance type** in your chosen region, we recommend referring to the **EC2** availability table based on the region from which you plan to deploy the BookStack infrastructure.

Last availability scan date: March 20, 2025.
